23. april 2025. godine

- OŠ „Novi Grad” je osnovana davne 1960. godine pod nazivom „Ivo Lola Ribar”. Ove školske godine obilježavamo značajan jubilej – **65 godina** postojanja škole.
- Krase nas uspješni i vrijedni učenici te inovativni i kreativni nastavnici i stručni saradnici, koji svojim radom i predanošću predstavljaju školu na najbolji način.
- Uspješni smo na mnogim poljima, ali uvijek želimo biti bolji i drugačiji.
- Na vrednovanju za šk. 2023/2024. godinu proglašeni smo najuspješnijom školom u Gradu Tuzli, dok smo na nivou Tuzlanskog kantona ostvarili odlično treće mjesto.
- Od 2013. godine u školi djeluje prvi Dječiji RTV Studio.
- Od 2014. godine raspolažemo sa moderno opremljenim multimedijalnim centrom.
- Od 2015. godine sve školske učionice i kabineti su opremljeni klima-uređajima.
- Od septembra 2018. godine u školi djeluje Produženi boravak za učenike od I do V razreda, koji se odvija u dvije namjenski opremljene prostorije sa pratećim sadržajima.
- Tokom 2018. godine izvršena je toplifikacija školskog objekta, kada je naša škola dobila novi izgled.
- Od 2020. godine nastava stranih jezika, koja se inače odvija u dva zasebno uređena kabineta za engleski i njemački jezik, bogatija je za namjenski opremljen mali jezički laboratorij sa pratećim sredstvima i pomagalicama. Spremno čekamo naše jezičke znalce, a na raspolaganju imamo i mini biblioteku sa naslovima na engleskom jeziku iz serije Penguin Kids Disney Pixar.
- Zidove škole krasi English Corner / Deutsch-Ecke, kutak koji uređuju članovi i voditelji sekcija English Club i Deutsch Klub.

Sivrac's 'celerifere' had a wooden frame, made in the **(68)** of a horse, which was mounted on a wheel at either end. To ride it, you sat on a small seat, just like a modern bicycle, and pushed **(69)** against the **(70)** with your legs - there were no pedals. It was impossible to steer a 'celerifere' and it had no brakes, but despite these problems the invention was very much **(71)** to the fashionable young men of Paris. Soon they were **(72)** races up and down the streets. Minor **(73)** were common as riders attempted a final burst of **(74)** Controlling the machine was difficult as the only way to change **(75)** was to pull up the front of the 'celerifere and **(76)** it round while the front wheel was **(77)** ... in the air. 'Celeriferes' were not popular for long, however, as the **(78)** of no springs, no steering and rough roads made riding them very uncomfortable. Even so, the wooden 'celerifere' was the **(79)** of the modern bicycle.

READING COMPREHENSION

Read the following paragraphs and choose the most suitable summary sentence from **A to F** for each part **95-100**.

A: Airlines make special efforts to avoid errors
B: No airline is free from mistakes
C: Busy airports are likely to have more problems
D: Losing your luggage can be very inconvenient
E: No airport can guarantee the safe handling of luggage
F: Plan ahead when travelling

95.

There is nothing more disappointing than arriving at an airport overseas to discover that your baggage has been left behind. At best you will have to put up with wearing the clothes you stand up in for hours or days, until the airline unites you with your luggage. At worst, you may be in a different climate zone, thousands of miles from home and forced to wear wholly unsuitable clothes.

96.

Although airlines rarely reveal how many cases they lose, it is a fact of life that sooner or later regular travelers will be parted from their luggage. Even the best airlines slip up from time to time, and it is impossible for any carrier to guarantee that a passenger's checked luggage will go on the same flight, particularly when a journey calls for one or more changes of aircraft.

97.

The system works like this. Airlines insist on exaggerated check-in times (which require passengers to report to the airport at a given time before departure) designed to allow sufficient time for baggage to pass through the airport and be loaded on to the plane. Minimum connecting times (MCTs) are the shortest time it takes to transfer between two flights. These, too, are exaggerated to allow for baggage transfers.

98.

These problems can become severe at large transfer airports, known as 'hubs', because of the large number of bags that are processed. Last year, for example, London's Heathrow airport handled more than 41 million passengers, of whom nine million were changing planes. British Airways alone handled two million transfer passengers at Heathrow, with most making the one-mile transfer between Terminal 1 (for Domestic and European flights) and Terminal 4 (for long-distance flights).

99.

Even efficient transfer airports, such as Amsterdam, Copenhagen, Singapore and Zurich have their bad days. The risk of baggage being lost when changing planes is higher than average at certain airports. Even the United States has problems – Miami airport is well known for luggage going missing when transatlantic passengers make immediate connections for destinations in Latin America.

100.

You should choose direct flights whenever possible and check in well before the official time. If a change of plane is unavoidable, or makes your flight less expensive, then try to fly the same airline throughout. Try to allow more time to connect by taking an earlier flight to the transfer airport, and make sure you label your luggage inside and out with your home and holiday addresses. Don't forget to include the flight numbers.
